Technical Skills

Languages: Python, Java, C++, C, Swift, Assembly
Frontend: ReactJS, JavaScript, HTML5, CSS3

Backend: Django, RESTful APIs, NoSQL, SQL
Tools & Concepts: Git, Linux/Unix, Figma, OOP, Algorithms

Projects

Release

March 2026-Present

Personal Project

- Full-stack iOS mobile application, built for students by students with 50+ daily users.
- Received overwhelmingly positive feedback from the userbase, saved users over 750 hours of screen time.

eXAI: Credit Card Default Classifier

Personal Project

May 2026

- Full-stack machine learning web application that predicts whether a credit card client is likely to default on their next payment.
- ML Pipeline: **OHE**, **standard scaling**, **random forest**, **K-NN**, and **data visualization** for **EDA**.
- Uses **SHAP** plotting to explain per-prediction and global feature importance to make every decision auditable.

Crash Tested

December 2025

UBC Data Quest Hackathon, Vancouver, BC

- Built a classification model to evaluate the Vancouver metropolitan area economic climate in the event of a recession.
- Took on the role of lead developer, utilizing **Python** libraries such as **Pandas**, **Numpy**, and **Scikit**.
- Trained on 30,000 data points, the model showed that crisis periods are not statistically significant to business license purchases.

CRIBS

nwHacks, Vancouver, BC

December 2024

- Designed and built a full-stack housing marketplace application to streamline short-term rental communication between landlords and tenants.
- Implemented a **RESTful** backend in **Django** with **PostgreSQL**, designing relational schemas and API endpoints to support user authentication.

Anderson-Darling Normality Analysis

Personal Project

March 2024

- Designed and implemented an **object-oriented** statistical analysis engine in **Java** to evaluate dataset normality using the Anderson-Darling test and performed further analysis using numerical approximation methods.

WORK EXPERIENCE

Research Assistant

May 2026 – Present

UBC Department of Mathematics, Vancouver, BC

- Summer research concerned with algebraic combinatorics, applying techniques from linear algebra, abstract algebra, and finite field theory to problems in graph theory.

Seasonal Chef

The Spot on the Dock, Burlington, VT

May 2024 – Present

- Served as a swing line cook across multiple kitchen stations in a high-volume restaurant environment, maintaining operational efficiency during peak service hours.
- Trained and onboarded new line cooks on kitchen procedures, workflow coordination, and service standards.

Media Director

December 2024 – Present

UBC Brazilian-Jiu Jitsu, Vancouver, BC

- Develop and manage club communications by creating informational content, coordinating with Canadian BJJ organizations, collaborating with executives, designing merchandise, and supporting event organization to promote a consistent club ethos.

Visual Merchandising and Customer Service

May 2023 – August 2024

REI Co-op, Burlington, VT

- Collaborated with team members to serve 100+ customers daily, using knowledge of outdoor goods to increase sales and maintain a positive customer experience.

EDUCATION

Combined Major in Computer Science and Statistics

September 2023 – May 2028

University of British Columbia, Vancouver, BC

- Average: 83.3% ~ 3.9/4.2 GPA ~ Dean's List

CERTIFICATION

Google Cyber Security
Google Cert • 2025

Digital Marketing
Hubspot • 2024

SQL basics Certificate
Hackerrank • 2025

Python basics Certificate
Hackerrank • 2025

UBC Science Co-op
