Fisher Munson-Warnken

fishermunsonwarnken@gmail.com | github.com/fisher-mw | fishermw.com | linkedin.com/in/fishermw | Vancouver, BC | 802-735-7526

Technical Skills

Languages: Python, Java, C++, C, SQL, JavaScript
Frameworks & Technologies: React, Node.js, Firestore, Supabase, PostgreSQL, REST APIs, Git, Pandas, NumPy, Figma
Concepts: OOP, Data Structures & Algorithms, Computer Systems, Software Design, Machine Learning

Projects

Release March 2026-May 2026
Personal Project
- Developed and deployed a full-stack mobile application used daily by over 50 students, reducing average screen time by 750+ cumulative hours.
- Built using **React.js** and Capacitor, integrating **REST APIs**, **Firebase Authentication**, and application analytics, and deployed beta releases through **TestFlight**.

eXAI: Credit Card Default Classifier
Personal Project May 2026
- Full stack web application leveraging a serialized predictive model to evaluate consumer credit default risk using financial data.
- Built **preprocessing** workflows for 30,000+ datapoints including **one-hot encoding**, **feature scaling**, and train/test evaluation **pipelines**. Improved accuracy 0.15 from baseline and **F1** score 0.309 from baseline.
- Integrated **SHAP** explainability to provide interpretable feature attribution for model predictions.

Crash Tested December 2025
UBC Data Quest Hackathon, Vancouver, BC
- Led development of a Python-based **classification pipeline** analyzing 40,000+ business and economic records.
- Performed large-scale data cleaning, preprocessing, statistical analysis, and feature engineering using **Pandas** and **NumPy**.
- Evaluated economic recession indicators through **quantitative modeling** and **exploratory data analysis**.

Anderson-Darling Normality Analysis
Personal Project March 2024
- Developed an **object-oriented** statistical analysis engine in **Java** for evaluating dataset normality using the Anderson-Darling test.
- Produced **UML** design documentation, implemented a **Java Swing** graphical interface, and developed unit tests with **JUnit**.

CRIBS
nwHacks, Vancouver, BC December 2024
- Collaborated on a four-person team to develop a full stack web application to streamline short-term rental communication between landlords and tenants.
- Out of 250+ participants, won most likely to be a startup by using a dating app style user interface to make finding rentals fun.

WORK EXPERIENCE

TechOps & AI Integration
GeoComply, Vancouver, BC Sept 2026 – Present
- Build GitOps CI/CD workflows to automate and safely manage SDK configuration changes.
- Identify AI/automation opportunities and work cross-team to improve workflows and documentation.

Data Consultant
Across Indonesian Seas, Vancouver, BC June 2026 – Sept 2026
- Designed an **enterprise ontology** to standardize business entities, relationships, and operational data across the organization.
- Developed data migrations, **ETL** pipelines and **SQL** automations to support forecasting, reporting, and operational planning.

Research Assistant May 2026 – Sept 2026
UBC Department of Mathematics, Vancouver, BC
- Investigating algebraic techniques underlying recent breakthroughs in extremal combinatorics.
- Utilizing **finite geometry**, **linear algebra**, and **graph theory** to establish tight bounds on extremal set systems and analyze the structure of combinatorial configurations.

Media Director December 2024 – April 2026
UBC Brazilian Jiu-Jitsu, Vancouver, BC
- Developed digital communications and promotional material for a 100+ member student organization.
- Collaborated with executive leadership and external organizations to coordinate events and merchandise.

EDUCATION

Combined Major in Computer Science and Statistics September 2023 – May 2028
University of British Columbia, Vancouver, BC
- Average: 82.6% ~ 3.8/4.2 GPA ~ Dean's List

Relevant Coursework: Applied Machine Learning, Statistical Modeling, Applied Linear Algebra, Probability, Multivariable Calculus, Computer Systems, Data Structures & Algorithms, Principles of Software Design, Relational Databases, Relationships in Data
